SUMMARY

Results-oriented Graphic Designer with about 4 years of experience. Skilled in integrating Generative AI with traditional design to create "High Quality Visuals" (Meta verified) that enhance engagement. Demonstrated success in expanding social media presence and generating significant lead inquiries through strategic art direction.

KEY ACHIEVEMENTS

- Facebook Ecosystem Scaling:** Developed a 22-month growth strategy for Hajoon Group, which helped increase followers to 2.9K and generated over 800 qualified inquiries.
- High-Velocity Content Reach:** Reached 49.1K views on Instagram, with 80% of the audience being non-followers, highlighting the potential of our visual content to reach a broader audience.
- Consistent Visibility:** Worked to expand brand presence, achieving an average of 4-digit views across all Meta platforms for both static and video content.
- Meta Quality Recognition:** Created assets that were recognized as "High Quality Visuals" by Meta's algorithms, which contributed to better ad delivery and cost optimization.
